- Brief report of the event

Summary:

The two-day Industrial Visit to **Nature Trails, Durshet, Khopoli**, organized by the **Department of Data Science and Business Analytics**, was an enriching experience that seamlessly combined learning, teamwork, adventure, and personal growth. Set amidst lush

greenery and a serene natural environment, the visit offered students an opportunity to step beyond classroom learning and engage in activities that fostered essential life skills and stronger peer connections.

Day 1:

The journey began with a **departure at 7:30 AM**, filled with excitement and anticipation. The group reached **Nature Trails, Durshet** by **9:30 AM**, where the peaceful surroundings instantly created a refreshing and welcoming atmosphere. To energize the participants and promote collaboration, a **treasure hunt** was conducted as a warm-up activity. This activity encouraged teamwork, problem-solving, communication, and strategic thinking among the students.

Later in the day, students attended an insightful and interactive **session conducted by Mr. Dominic**, which included **three engaging games** designed to highlight important and relevant aspects of life such as leadership, trust, adaptability, decision-making, and self-awareness. Through experiential learning, students gained practical insights that extended beyond academics and encouraged reflection on personal growth.

As the day drew to a close, students gathered for a **bonfire session** in the evening. The warmth of the fire, combined with open conversations, laughter, and shared experiences, created a strong sense of unity and bonding among the participants, making the first day both memorable and meaningful.

Day 2:

The second day began with a refreshing **morning trek**, allowing students to connect with nature while developing physical endurance and mindfulness. This was followed by **fun and interactive activities** that maintained high energy levels and enthusiasm throughout the day. The highlight of the visit was the **adventure activity session**, which began with **zip-lining** and included several thrilling challenges that encouraged students to step out of their comfort zones, build confidence, and trust both themselves and their peers.

The visit concluded with a **tree plantation activity**, emphasizing the importance of environmental awareness and sustainability. This meaningful gesture reinforced the responsibility of giving back to nature and left a lasting impact on the students. The group **departed at 3:00 PM**, carrying with them unforgettable memories, strengthened relationships, valuable life lessons, and a renewed sense of confidence, responsibility, and appreciation for experiential learning.
